

Frederick William Dame

A LETTER TO AMERICAN PATRIOTS

FROM

THOMAS PAINE

Honored American Patriots!

Between December 1776 and December 1783, I wrote nineteen chapters of what history refers to as *The American Crisis Papers*, which were signed Common Sense. For this work I have been honored with the sobriquet *Pamphleteer of the Revolution*. That historical period was a crisis par excellence in the forming stages of what was to become the Republic of the United States of America.

America is now in its second crisis, fueled by the illegal election of Barack Hussein Obama as the 44th President (but bogus President) of the United States of America and his support by a treasonous DemocRAT party. Barack Hussein Obama, the personification of evil, and his moonstruck followers have created a new American Crisis with the goal of tearing asunder the *Constitution for the United States of America* and republican government. The demons are in the process of destroying American wisdom and knowledge made law by America's Founding Fathers.

I unequivocally state that Barack Hussein Obama's goal is the total annihilation of the United States of America so that socialism-communism can be implemented. However, this is only one part of a two-pronged pincer movement to devastate our country. The second part is, that concurrent with our *Constitution*, Islamic sharia law will be introduced so that it will eventually supplant the American *Constitution*. This is a humiliation and demoting of constitutionally guaranteed freedoms. America will be combated by a two-front ideological attack and the United States of America will cease to exist. Ultimately Americans will lose every legally guaranteed right that they hold dear.

Honorable American Patriots! You should not be surprised! Americans made a choice in 2008 and 2012. That choice yielded the great consequence of America's

self-destruction because of the voting citizens' ignorance and their inability to understand hope and change.

In the American Colonial Revolution there was also a call for hope and change. The hope was that American Colonials would begin a new era in political governing after they had changed the political system from one of royal despotism under the British King George III, to one of a republic responsible to WE the People only in a constitutionally established framework. In the 1920s, the 1930s, and the 1940s socialism-communism was considered the hope of the world. Famous people like the British mathematician and philosopher Bertrand Russell, Max Shachtman, candidate of the Workers Party for Mayor of New York City in 1944, and the socialist-communist leaning president Franklin Delano Roosevelt never tired in propagandizing for the socialism-communism paradise. The ruse is still continuing under the United Nations Climate Chief Christiana Figueres, who has stated that only communism can successfully fight climate change and global warming. The American ethnologist and anarchist David Graeber of the London School of Economics and Political Science argues a similar position. Methinks that the pro-socialism-communism snake oil sellers forget the fact that easily over 100,000,000 people – this is a very conservative estimation – have been killed by attempts to establish the greatest criminal system in the world in the twentieth century: socialism-communism.

Barack Hussein Obama's mantra of hope and change was definitely of a different sort. Obama's hope is that in addition to becoming an Islamic America, the country will become a socialist-communist state and that the system of a free market economy which has so productively produced wealth and success to those entrepreneurs who actively participate in such a free market economy is changed to the government-regulated careers of brainwashed individuals. This situation is what the DemocRAT Party has always wanted since the Civil War. The slaves were supposed to remain slaves. The politically misinformed, regardless of color, are to be the new slaves to the big-government-handout system guaranteed by the DemocRAT Party.

Americans chose the evilness of Barack Hussein Obama in 2008 and 2012 without thinking about the consequences of their actions. Thus they elected to become disenfranchised from the fool-proof legacy of the Judeo-Christian teachings with the

emphasis on moral obligations as envisioned by the Founding Fathers. The DemocRAT Party has had a long history of undermining personal and ethical responsibility in a political system. One only need to take a cursory look at the junk, revisionist American civics, history, and sociology courses that have been taught and are still being taught and propagated in American schools, colleges, and universities since the end of World War II. A prime example of this intellectual junk is seen in the Common Core educational program, where two plus two is no longer four, or the argument that it does not make a difference if one's answers are wrong, but only that one is understood. Logic, morals, ethics, Christianity, American history, American traditions and culture are no longer important according to the political usurpers that are the DemocRAT Party and the Barack Hussein Obama regime.

American Exceptionalism was planned from the beginning of the United States of America. Of course, this is in total contradiction to the collectivism of Marxist-big government, named with the innocent nomenclature *the administration of things*, which if not peacefully welcomed by the citizens, will be rammed down their collectivist weasands.

Remember that Barack Hussein Obama claims that *You didn't build that!* What the enemy media and the generally dumb citizen does not comprehend is that such a statement is the absolute refutation of the historical truths of the success of entrepreneurs and the free market economy. The statement is a denial of scientific fact and the propagandist of this deception, Barack Hussein Obama, is totally unqualified to lead the America people because everything he undertakes has the goal of shackling the individual to ignorance, Marxist teaching, and Islamic sharia law. The truth is that the foundational laws that created an atmosphere that allowed American Exceptionalism to develop and thrive are laws that permitted individuals to achieve their full political and economic potential. When the political leader contends the opposite, it is propagandizing a situation that is a falsity and the chief propagandist, Barack Hussein Obama, is a liar. America's constitutional fathers were not liars. They were believers in the Laws of Nature and established a legal framework that gave birth to American Exceptionalism.

The reality behind Barack Hussein Obama's hope and change is that all of the voters exist to be dumbed-down to the most primitive levels of intellect, if ever the word

intellect can be used. This hope and change is aimed at the control of a high percentage of Americans virtually incapable of using any cognitive power of logic. This is proven by the fact that when Obama calls for change in the United States of America – the last great bastion of positive, free market economy and republican federal form of government – it has to be the dismantling of the complete economic system and form of government. That is the logic that Americans did not want to comprehend or were unable to comprehend in 2008, 2012, and now!

Being free according to the Laws of Nature is an ever-continuing process. The Founding Fathers understood that this process will make the citizen enlightened. Yet it requires a political environment framed by moral laws coming from We the People, not executive orders being dictated by a totalitarian, treasonous government. Modern-day Americans are in a bottomless pit of ignorance. They want big government to provide for them and forget that the bigger the government, the surer it is to take away their freedoms. In my day we patriotic revolutionaries fought against big government and for the natural laws and rights vested in We the People.

My original *The American Crisis* described the moments of truth America was facing in the Colonial Revolutionary Period in American history. The days of enlightened visionaries in my era gave America the foundation of freedom. The present days of Obama nightmares are taking those freedoms away. There is no rational wisdom in Obama's policies because he is not and will never be a seeker of Truth.

In January 2014, Frederick William Dame contacted me in time-warped Philadelphia and conveyed to me his concerns about the present condition of the United States of America. His logic is that there are very similar conditions in America today that were present in the Colonial America of my day. Mr. Dame asked me if I would give him permission to use *The American Crisis* papers of 1776-1783 as a basis from which to convey his arguments that America is in a modern-day crisis. I am overjoyed that there is still a core patriotic feeling for the country of freedom that evolved out of the American Revolution. I consider it an honor to be of patriotic importance in the era of Barack Hussein Obama who is the ultimate insult to freedom-loving Americans.

With this letter I allow Frederick William Dame to freely use my original *American Crisis* papers so that American patriotic citizens and those who have been brainwashed by the DemocRAT Party and Barack Hussein Obama will be able to

realize the dangers of the totalitarianism of big government and creeping Islam, which the English orientalist George Sale, the translator of the Koran into English in 1734, described as "certainly one of the most convincing proofs that Mohammedism (sic) was no other than human invention, that it owed its progress and establishment almost entirely to the sword." May Americans use the wisdom in Mr. Dame's *American Crisis* to reverse this satanic attack on free, God-fearing Americans.

In closing, I make the following statement concerning Barack Hussein Obama and cite the Roman philosopher, politician, lawyer, orator, political theorist, consul, and constitutionalist Marcus Tullius Cicero who says in *Orationes in Verrem*, Actio I, 3. 8: "... *civium ... cruciatus multorumque innocentium sanguis istius supplicio luendus est!*

Stamus Contra Malum

Thomas Paine

The Pamphleteer of the Revolution

Time-warped Philadelphia, June in 1784

Note: Cicero writes *civium Romanorum cruciatus ...* . (The free translation of the above is: *The ordeal of (the) citizens and the blood of the innocent demand atonement by means of hanging this thug [Barack Hussein Obama].*)
