JT: It's Islam! Her father is a so-called religious leader and represents Allah-Hubal and Mohammed: Obama says "Respect It!"

From <http://directorblue.blogspot.de/2012/11/we-keep-all-of-scandals-straight-so-you.html>

- The Ambassador to Libya was assassinated on September 11th, along with three other Americans, during a 7-hour running gun-battle
- Iranian fighter jets attempted to shoot down a U.S. aircraft over international waters
- The President's most trusted adviser was sent to Iran to secretly beg the Iranians to come to some kind of an accommodation regarding their nuclear program
- The CIA director provided false testimony under oath to Congress about the nature of the attacks that killed the U.S. Ambassador
- The CIA director was schtapping his biographer and [could have been blackmailed](#) by the White House to lie under oath
- For the first time in decades, a Russian nuclear attack submarine skirted the East Coast of the U.S.
- And the White House appears to have been [operating a secret rendition prison in Benghazi](#), in direct violation of the President's own orders

Oh! And one other facet to consider: **the background or existence of each of these incidents was carefully and purposefully hidden from the public until *after* the election.**

If the Watergate break-in and the subsequent cover-up by the Nixon administration merited impeachment, these crimes against the American people deserve something far more draconian.

What else is this administration hiding?

JT: The real question is: What is being made public? The answer is: Everything that the Obama Regime has made public over the last four years:

LIES!

JT: There should be a concrete, organized effort to bury Barry!

Don Fredrick of *The Obama Timeline* reports that Obama says, “[W]e can’t just cut our way to prosperity. If we’re serious about reducing the deficit, we have to combine spending cuts with revenue. And that means asking the wealthiest Americans to pay a little more in taxes. ...That’s how we can reduce the deficit while still making the investments we need to build a strong middle class and a strong economy. That’s the only way we can still afford to train our workers or help our kids pay for college or make sure that good jobs in clean energy or high-tech manufacturing don’t end up in countries like China. Now, already, I’ve put forward a detailed plan that allows us to

make these investments while reducing our deficit by \$4 trillion over the next decade. I want to be clear: I'm not wedded to every detail of my plan. I'm open to compromise. I'm open to new ideas. I'm committed to solving our fiscal challenges." (Obama is wrong. The simple truth is that the nation not only can, it *must* "cut its way to prosperity." It can never achieve prosperity without spending cuts—yet all the legislators are willing to do is slightly reduce the rate of spending increases. They are *not* suggesting net spending cuts. Additionally, Obama cannot spend money twice. He demands higher taxes to reduce the deficit, yet also wants to spend that same additional tax revenue on "investments" like education and training. Lastly, Obama's "detailed plan" is nothing more than his budget proposal—that received *zero* votes in the Senate and will not reduce the deficit by \$4 trillion.)

JT: Now if budget cuts are approved by the Congress, how is Michelle going to be able to live according to her needs?

JT: What? I'm so surprised! The Nut in chief has only one nut!

At http://www.jihadwatch.org/2012/11/tanzania-muslims-destroy-dozens-of-churches-demand-heads-of-all-church-pastors.html?utm_source=dlvr.it&utm_medium=twitter we read that in Tanzania "Muslims destroy dozens of churches, demand heads of all church pastors."

JT: Let's make Obama an official pastor and send him Tanzania.

Source: <http://sheikyermami.com/wp-content/uploads/photo5.jpg>.

JT: Now that's real news!

Don Fredrick of *The Obama Timeline* reports, "Peter Schiff, president and chief global strategist of Euro Pacific Capital, is interviewed by SeekingAlpha.com. Schiff states, 'Well, if Romney had won, we'd still have a lot of troubles. But it certainly would have been an improvement to have had Romney in office. But we still have a huge crisis coming, and I don't think Romney being in office would have prevented that. But it would have given me a little bit more hope that we would come out of this a little bit better—that we might have tried more effective market-oriented solutions to these problems. ... the dollar was going to go down and gold was going to go up regardless. The re-election of Obama and the politics behind it just really shows the trouble America is in as a nation and as a society. The types of leaders we're likely to elect, and the types of policies we're likely to pursue are going to substantially undermine the economy. It's almost like a self-perpetuating prophesy, because the more the government interferes in the economy, the more regulations we have; the

more government spending we have, the more taxes we have—particularly on those with upper income—the worse the economy is going to get, the lower our living standard is going to go and the more good job opportunities are going to be diminished. And that's very fertile ground for politicians to promise relief in the form of more government. And, more government creates the need for more government; because the more government we have, the more poverty we have. We're in that spiral right now; this is how democracies die. We're in a situation, voting-wise, where we have more people in the wagon than we have pulling it. The way you get elected is you promise to people who are riding in the wagon more free stuff, an easier ride; and you also promise to whip the people pulling the wagon a little harder and make them do a little bit more. And as you do that, there are always people pulling the wagon who decide they are tired of pulling the wagon, and they want to jump in with everyone else. So you get even more people looking for something from government and you have fewer people to pay the bills. And this is where we are—a disintegrating nation."

JT: This is a very good summary of Obama's *hope and change*. Read more at *The Obama Timeline*, November Report, and the full interview at <http://www.indexuniverse.com/sections/features/15086-schiff-dollar-collapse-before-obamas-out.html>. If the Peter Schiff prophecies comes true, and there is no doubt in my mind that they will, government will implode and this will give Obama a reason to call out martial law. That will finally guillotine the United States of America. The guillotine is already in free fall! We should replace The United States of America with Obama's head and speed up the free fall.

At <http://thehill.com/blogs/floor-action/senate/268291-cornyn-tells-obama-to-stop-campaigning-and-produce-a-deficit-reduction-plan> Senator John Cornyn (R-TX) says, "I think we all have to realize the hand we've been dealt and not to look back and point the finger of blame, but this is the job we've volunteered for."

JT: This is the wrong attitude and position to take. It is pure political correctness. And it sucks!!! Point the finger at Obama every minute every day. Point everything illegal that happens and has happened at Obama at every possibility, particularly when interviewed by the lamestream media. Point the finger at the lamestream media – the enemedia – and their incompetence over the last four to five years, as well as during the Bush administrations. Personally, I'm sick to my stomach concerning the wishy-washy statements. Hit the POLDS and Obama and hit them and him hard. So hard that he will not know what happened or where it came from. Call him a liar to his face and demand that he disprove it. He can't disprove it because he has always lied and the lies have been thoroughly documented. Accuse the lamestream media of lying. I'm doing it now:

Barack Hussein Obama: You are a LIAR!

Lamestream media, also known as enemedia:. You are all LIARS.

On March 20, 1861, U.S. Senator James A. Bayard of Maryland offered a resolution to avoid bloodshed. It stated, "Resolved by the Senate of the United States, That the President, with the advice and consent of the Senate, has full power and authority to accept the declaration of the seceding States that they constitute hereafter an alien people, and to negotiate and conclude a treaty with 'the Confederate States of America' acknowledging their independence as a separate nation; and that humanity and the principle avowed in the Declaration of Independence that the only just hosts of government is 'the consent of the governed,' alike require that the otherwise inevitable alternative of civil war, with all its evils and devastation, should be thus avoided." Don Fredrick notes, "Had Abraham Lincoln and a majority of Congress heeded Bayard's advice, 600,000 lives could have been saved."

JT: Do you think Obama gives a damn about American lives? I don't. He would accept as many deaths as necessary to push through his goals.

Obama is following the communist line: "From each according to his abilities; to each according to his needs."

JT: That's what FORWARD was/is all about in National Socialism and Communism.

Don Fredrick says, "The Obama administration ... leaked false talking points to CBS to cover up the truth (about Benghazi). That should be grounds enough for impeachment."

JT: There are many grounds for impeachment. Attempts at impeachment will go nowhere unless the cries are from millions of Americans, coupled with a strike against the enemedia media.

On November 16 Reuters reports, "Israeli ministers were on Friday asked to endorse the call-up of up to 75,000 reservists after Palestinian militants nearly hit Jerusalem with a rocket for the first time in decades and fired at Tel Aviv for a second day."

JT: Wouldn't it be interesting (It's the only word I can think of at the moment. Well, perhaps Allah-Hubal's wish!) if one or more of the Palestinian rockets/missiles hit the Al Masjid Al Aqsa (Bait Al Maqdis) - Aqsa Mosque in Jerusalem (The Dome of the Rock) and destroyed it?

Politico and CNN reports that Virginia Moseley, producer of ABC's Good Morning America, has been named a CNN vice president and its Washington deputy bureau chief. (From Don Fredrick of the Obama Timeline: "The media reports neglect to mention that Moseley's husband is Tom Nides, a deputy Secretary of State—or that both Moseley and Nides are friends of Obama and his wife Michelle. At ABC, Moseley works with Ben Sherwood, whose sister works at the White House. It was Moseley who hired former Bill Clinton aide George Stephanopoulos to work at ABC. ABC reporter Claire Shipman is married to White House press secretary Jay Carney. ABC News reporter Bianna Golodryga is married to former Obama budget director Peter Orszag. The mainstream media believes none of these connections are worth reporting, and argues with a straight face that their reporting is 'objective.'")

JT: This is a representation of the thug connections as they come from the thug of thugs. Remember what Michelle Malkin titled it? *Culture of Corruption, Obama and His Team of Tax Cheats, Crooks, and Cronies*, Regnery Publishing, Inc., Washington, D.C.: 2009. There is a cure for many diseases. However there is not a cure for this cancer destroying morality and ethics, or is there? Perhaps the TRUTH, the TRUTH and nothing but the TRUTH! Like at JT.

"Israel has every right to expect that it does not have missiles fired into its territory. If that can be accomplished without a ramping up of military activity in Gaza, that's preferable."
