JT: Coming to Americans in the near future. It's Islam. Obama says respect it!

At <http://www.israeltoday.co.il/Default.aspx?tabid=178&nid=24557> Israel is notified of the following:

“We demand that the State of Israel pay compensation for the ten plagues that our forefathers in Egypt suffered thousands of years ago as a result of the curses of the Jewish forefathers.” So wrote prominent Egyptian columnist Ahmad Al-Gamal shortly before the Jewish Passover, causing a great stir.

“What is written in the Torah is that Pharaoh discriminated against the children of Israel. What have we to do with it? We therefore need not suffer!” exclaimed Al-Gamal, drawing a clear difference between the Egyptian kingdom of the Pharaohs and Islamic Egypt of today. Islam accepts the biblical narrative as historical evidence.

The columnist suggested that the government in Cairo press charges against Israel: *“The Jews caused the land to be stricken with locusts and all agriculture destroyed, turned the Nile red with blood so that one could drink its waters, sent darkness, frogs and killed the firstborn.”*

Al-Gamal continued: *“During 40 years of wandering in the desert, the Children of Israel enjoyed our goods, which they stole before abandoning us.”* He also recommended that Egypt bring charges against France, Great Britain and Turkey for those nations' historical conquests of Egypt.

The Egyptian column was picked up by the Israeli press, especially religious news outlets, which readily acknowledged all that Al-Gamal wrote as historical fact. Some Israeli columnists retorted that Egypt need first compensate Israel for keeping the Jewish forefathers as slaves and for killing all male Jewish babies in the generation prior to the Exodus.

JT: Methinks that Al-Gamal and those who take or support his position have been drinking too much araq.

<http://americanoverlook.com/michelle-obama-to-run-for-president> reports:

Rumors are being spread that Michelle Obama is considering making a run at office in 2016. Some are pointing to her PR push, including her cover of Vogue magazine, as a way for her to become even more recognizable with voters. Mrs. Obama does not have any prior political experience, but that may not stop her from making a run as the leader of the free world.

JT: Imagine Michelle being the next president. Would Barrie be the next First Lady?

Source: <http://iowntheworld.com/blog/wp-content/uploads/2011/12/new-white-house1-471x253.jpg>

JT: This is Barry's new architecture model for the White House. He has been doing more than just playing golf!

"Three people died Sunday when a gunman opened fire outside the Jewish Community Center and a senior living facility in Johnson County, (Kansas). ... Two of the victims were a 14-year-old boy and his grandfather who attend the United Methodist Church of the Resurrection in Leawood..." Upon his arrest, 73-year-old Frazier Glenn Miller, also known as Frazier Glenn Cross, shouts "Heil Hitler." Miller, a former "Grand Dragon of the Carolina Knights of the Ku Klux Klan," has unsuccessfully run for office as both a Democrat and as a Republican. Obama issues a statement: "Michelle and I offer our thoughts and prayers to the families and friends who lost a loved one and everyone affected by this tragedy. While we do not know all of the details surrounding today's shooting, the initial reports are heartbreaking. I

want to offer my condolences to all the families trying to make sense of this difficult situation and pledge the full support from the federal government as we heal and cope during this trying time.” (<http://www.kansascity.com/2014/04/13/4957486/one-reported-dead-in-shooting.html>)

JT: It wouldn't surprise me if Obama and Michelle recant their statement when they hear that the shooting was at a Jewish Community Center and two of the dead were Christians.

The Obama Timeline reports: "On April 14 Obama says at an Easter Prayer Breakfast, "We celebrate the glory of the Resurrection—all so that we might be forgiven of our sins and granted everlasting life. And more than 2,000 years later, it inspires us still." (Don Fredrick notes: DailyCaller.com points out, "Scholars generally agree that Jesus, who lived to about his thirties, died on the cross between 30-36 AD. For Obama's statement that the Resurrection occurred 'more than 2,000 years ago' to be true, Jesus would have had to have died and been resurrected in 13 AD or earlier.")

JT: This computation mistake by Mr. Mistake is logical, since he can't even count the number of states in the United States. He once said (still thinks?) there are 57.

JT: Five True Words!

JT: There are suggestions mainly from the tabloid press that the Obamas are having spats about their marriage and over Barry's penchant to take selfies with pretty women, of course much prettier than Michelle. Their marriage may not last much longer. The latest rumor is that Barack Hussein Obama is dating a very old friend. JT has a framed photo of the two.

JT: Truth out of the mouth of a child!

At the memorial ceremony of the Boston Massacre Joe Biden, who claims he is the vice-president, says, "We are America, we own the finish line."

JT: What did he mean by the statement? JT has the answer. *We* is a reference to the DemocRATS and those who give in to Islam. The finish line is a referral to the fact that these Americans are telling the other Americans that America as a free land is at its finish. There will be no free, independent, individual future where people can pursue life, liberty, and happiness.

Joe Biden and Barack Hussein Obama could care less. They have usurped their positions and have destroyed the Constitution for the United States of America.

JT: Methinks this is an example of the democratic election process at work in the Ukraine and in the European Community. Left to right: Ukraine's President Oleksandr Turchynov; Herman van Rompuy, Head of the European Council; José Manuel Barroso, President of the European Commission; Catherine Ashton, Baroness Ashton of Upholland, High Representative of the Union for Foreign Affairs and Security Policy for the European Union and first Vice-President of the European Commission.

JT: There is a rumor that the energy drink was invented by William Jefferson THE CIGAR Clinton, husband of Killary Klinton.

WASHINGTON—Putting the nation on alert against what it has described as a “highly credible terrorist threat,” the FBI announced today that it has uncovered a plot by members of al-Qaeda to sit back and enjoy themselves while the United States collapses of its own accord.

Multiple intelligence agencies confirmed that the militant Islamist organization and its numerous affiliates intend to carry out a massive, coordinated plan to stand aside and watch America’s increasingly rapid decline, with terrorist operatives across the globe reportedly mobilizing to take it easy, relax, and savor the spectacle as it unfolds.

“We have intercepted electronic communication indicating that al-Qaeda members are actively plotting to stay out of the way while America as we know it gradually crumbles under the weight of its own self-inflicted debt and disrepair,” FBI Deputy Director Mark F. Giuliano told the assembled press corps. “If this plan succeeds, it will leave behind a nation with a completely dysfunctional economy, collapsing infrastructure, and a catastrophic health crisis afflicting millions across the nation. We want to emphasize that this danger is very real.”

“And unfortunately, based on information we have from intelligence assets on the ground, this plot is already well under way,” he added.

A recently declassified CIA report confirmed that all known al-Qaeda-affiliated organizations—from Pakistan to Yemen, and from Somalia to Algeria—have been instructed to kick back and enjoy the show as the United States’ federal government, energy grid, and industrial sector are rendered impotent by internal dissent, decay, and mismanagement. According to statements made by top-level informants and corroborated by leading Western terrorism experts, if seen through to its conclusion, al-Qaeda’s current plot could wreak far more damage than the events of 9/11.

In the past year, money transfers to al-Qaeda cells around the world have reportedly been accompanied by instructions to use the funds to outfit safe houses with the proper equipment to receive American cable news broadcasts and view top U.S. news websites, allowing terrorists to fully relish each detail of the impending demise of the last global superpower.

Additionally, FBI officials made public an internal al-Qaeda video today in which the terrorist organization’s leader Ayman al-Zawahiri chillingly exhorts his followers to “take a load off” and “unwind” in the name of jihad, and really cherish the victory over their enemy.

“Praise Allah, for soon every American city shall be plagued with disaster and hardship,” al-Zawahiri said in the video, which includes several minutes of footage of young, masked al-Qaeda militants casually sipping beverages as they thumb through the latest issues of *Time* and *U.S. News And World Report*. “The infidels have brought this pain and destruction upon themselves through their arrogance and callousness. Soon, the United States will watch in horror as its bridges crumble, its desperate citizens suffer in want of medicine and paying employment, and its once vast riches are reduced to naught. The righteous warriors among our ranks must now unite, get comfortable, and look on from afar at the calamity unfolding in the West.”

“We vow that we will not cease sitting around and laughing it up until America is reduced to rubble,” he continued.

Al-Zawahiri, who is seen in the video reclining back in his chair, putting his feet up, and flipping on CNN, later shouts “Allahu Akbar!” when a story is aired about the decade-long trend of stagnant wages among American workers.

The FBI has also warned that numerous al-Qaeda agents may have established sleeper cells for the purpose of “getting a kick out of” the nation’s downfall on American soil. The bureau urged U.S. residents to use caution around schools, hospitals, legislative bodies, prisons, and other decaying institutions whose imminent failure terrorists may wish to observe up close.

Speaking on condition of anonymity, one high-ranking U.S. counterterrorism official has described the present situation as a massive failure of intelligence.

“The warning signs were there all along, but unfortunately we failed to heed them,” said the official, who advised Americans to brace for widespread devastation. “If we’d listened to experts or even our own common sense, we would’ve realized that this plot was being actively orchestrated within our own borders. But we didn’t, and now every one of our citizens and our very way of life is at risk from this threat.”

“Sadly, al-Qaeda has us right where they want us,” the official added, “and at this point, I fear it is too late to do anything about it.”

Responding to the allegations, a spokesperson for al-Qaeda reportedly confirmed the terror group’s plot and praised the American people as martyrs of the highest order.”

Jihadists Winning the War Here at Home

Arab Winter Comes to America: The Truth About the War We're In.

Our government has again and again failed to protect our homeland from Islamic terrorists, Spencer argues, because it fears being accused of "Islamaphobia." By ignoring the very real threat of jihadism, the United States government has allowed a radical Islamic network to take root here at home. The security community must stop pretending there is no causal link between radical Islam and acts of terror—before we're confronted with another national tragedy.

Freedom fighters the world over are raving about this book:

“This book is a wake-up call that every one of our elected representatives and law enforcement and intelligence officials should heed. Robert Spencer shows the price of the prevailing refusal to study the ideology of Islamic jihad terrorists – and that price is only going to rise, unless the lessons of this book are heeded.” — Steven Emerson, The Investigative Project

“Robert Spencer shows in this book just how serious the situation has become regarding the jihad against the U.S. Few people realize how much our government, law enforcement and media elites have endangered us all with their denial of the jihad threat. But it’s all in this book, along with a pathway back to sanity. If the West is to be saved, we will owe Robert Spencer an incalculable debt.” — Pamela Geller, President, American Freedom Defense Initiative, and author of *The Post-American Presidency: The Obama Administration’s War On America*

“It was a tragedy, to say nothing of an unmitigated foreign policy disaster, for the United States government to misdiagnose the Arab Spring as a democratic uprising rather than a windfall for Islamic supremacists. As Robert Spencer demonstrates with his signature blend of intellectual rigor and fearlessness, our continued refusal to grapple with the ideology that fuels jihadism has significantly increased the terrorist threat here at home.

When you pretend your enemies are your friends, you don't get peace, you get terror." – Andrew C. McCarthy, bestselling author of *Willful Blindness* and *The Grand Jihad*

"Between 2010 and 2013, Robert Spencer relates, he 'had gone from being a trainer for the FBI and the U.S. military to being shunned by the U.S. government and a Roman Catholic bishop and banned from Great Britain' – even though his views had remained the same. What had changed was the willingness to discuss Islamism, jihad, and Sharia. Written in response to this shift, Spencer's helpful survey of efforts to impose Islamic law on Americans irrefutably shows the dangers of succumbing to a medieval code." — Daniel Pipes, President, Middle East Forum

"Robert Spencer has been banned in Great Britain, cancelled in Massachusetts and shunned by the Obama administration. So what is it about Spencer's insights on Islam and the jihadist threat that has the Left and its smooth-talking Islamist allies in the West so eager to silence him? Look no further than *Arab Winter Comes to America*. Bold, eloquent, witty and uncompromising in its assessment of the massive Islamic jihadi penetration of a feckless West, it is vintage Spencer. Snatch it up and give copies to your friends, family and neighbors while you still can—and before the Spencer censors come to your town." – Erick Stakelbeck, Author, *The Brotherhood: America's Next Great Enemy* and host of CBN's "The Watchman" program

"Nothing is so important as telling the truth about Islam, especially in an age when few want to hear it because it is so disturbing. America is fortunate to have an indomitable truth-teller such as Robert Spencer. In this book, he explains how Islam is subverting America's freedoms and values. The Arab Winter will be upon America, unless America starts listening to people such as Robert Spencer. This is an extremely timely and important book by one of the West's most perceptive analysts of Islam." -- Geert Wilders, Party for Freedom, the Netherlands.
