

Make The Law Go Away

by Don Fredrick

(Sung to the tune of *Make The World Go Away*)

Make the law go away,
Get it off our shoulders.
Don't make the young and healthy pay,
Just make the law go away.

Do you recall we once had freedom,
To live and die the way we choose?
If you do then help repeal it,
Or you'll have even more to lose.

Make ObamaCare go away,
Get it off our shoulders.
Don't force the middle class to pay,
And make the law just go away.

Now I'm sorry for your illness,
And that you may be poor or old.
But forcing me to pay for your care,
Was not the way the law was sold.

Make the law go away.
Get it off our shoulders.
Don't make the young and healthy pay.
And make the law just go away.
