# **The American Crisis**

## **The Head Of Tyranny In America Must Expire**

### **A Call To Take Action**

#### **Number Eleven**

Beginning with the presidential election in 2008 and continuing throughout the years since, the United States of America has seen the wild establishment and unchecked advancement of tyranny in the person of Barack Hussein Obama and his regime. It is time for the tyrannical head to expire.

Had America pursued her advantages with half the spirit that she resisted her misfortunes, she would have now become a Barack-Hussein-Obama-free and peaceful, prosperous people. However, America was lulled on the lap of soft tranquility to the mantra of treasonous-infested, political propaganda supplied by the enemedia. America went to sleep on hope and change. Only within the past year has adversity convulsed her into action. Whether subtlety or sincerity at the close of the last year induced the enemy Obama regime to an appearance for pseudo-compassion for America is a point not material to know. It is sufficient that WE the People see the terrible effects it has had on America's politics, and that WE the People sternly rise to resent the delusion that the effects have been positive.

The domestic war on the part of the Obama regime has been a war of their natural hate feelings. Supposed leadership in distress; serenity in placating the masses, particularly the brain dead who are already placated with the pabulum of DemocRAT Party ranting; drowsiness while at rest with body servants; in every situation generously disposed to play golf; and a dangerous calm and a most heightened zeal

against the American People have, as circumstances varied, succeeded and complemented each other. Every passion but that of despair has been called to a tour of duty; and so mistaken has been the enemy Obama regime of American Patriots' abilities and disposition, that when Barack Hussein Obama supposed WE the People to have been conquered, We the People have risen as the true conquerors for freedom.

The extensiveness of the United States of America and the variety of its resources; the universality of its cause as expounded by the *Declaration of Independence* and the *Constitution for the United States of America*; the quick operation of patriotic feelings, and the similarity of the patriotic sentiments, have, in every trying situation, produced a something, which, favored by providence and pursued with ardor, has accomplished in an instant the business of a nation-wide rise for patriotism and the defense of the American republic against the threats of Obama's socialism-communism. WE the People have snatched the opportunity for victory and have bravely begun in this historical hour to blot out the operations of an Obama dictatorship.

The present fate of America, like the misfortunes of 1776, has at last called forth a spirit and kindled up a flame which perhaps no other event could have produced. The Obama enemy has circulated falsehoods. They have unwisely aggravated WE the People into life. They have never told the truth. They have never intentionally done WE the People a service. With his dilettante diplomacy and rules of military engagement, Barack Hussein Obama has forced America to return with folded arms from the possible victories of war in Iraq and Afghanistan and brainwashed the nation to make it think that Islam is peaceful and that all America has to do is to sit leisurely down to enjoy repose.

The Obama regime attacks that have been put upon America have thrown drowsiness over the whole country. With the usurpation of political power by Barack Hussein Obama, the majority of Americans looked on the business as being done, the conflicts over, the matters settled, or that all which remained unfinished would follow of itself. In this state of dangerous relaxation, exposed to the poisonous infusions of the enemy Obama regime, and having no awareness of the common

danger to attract the attention of Americans, the ardor that was established in 1776 has been extinguished by stages and Americans have surrendered by piece-meal the virtues that have always defended the United States of America.

Afflicting as the attacks of the Obama regime on America may be, yet if they universally rouse Americans from the slumber of five-plus years past, and if they renew in Americans the spirit of former days, they will produce an advantage more important than a loss. America ever is what she thinks herself to be. Governed by sentiment, and acting her own mind, she becomes, as she pleases, the victor or the victim. Under the tyranny of Barack Hussein Obama, America has become the victim. It is time that she becomes the victor over the tyrannous head.

It is neither the Obama regime propaganda nor the accidental success of a round of golf that can support a country as extensive as this. The sufferings of one part can never be relieved by the exertions of another, and there is no situation the enemy Obama regime can be placed in that does not afford to WE the People the same advantages which Obama seeks himself. By claiming success, he leaves every policy attackable. It is a mode of confrontation that carries with it a confession of weakness and goes on the principle of distress rather than conquest.

The decline of the enemy Obama regime is visible not only in their operations but in their original plans for the total control of American lives from the cradle to the grave. Hope and change was but a slimy con-phrase object in the system of attack. Total control is their principal goal via ObamaCare, because they have not been able to succeed elsewhere. It would have carried a cowardly appearance in the world had they publicly proclaimed their grand expedition of conducting a domestic war to institute socialism-communism against the country in which there was no social crisis. Therefore, the Obama regime created one by saying that it existed. Yet, year after year they have been failing in their impressions to the eastward and northward, to the westward and the southward. They have not deserted their capital design of socialist-communist dope and chains. At the same time, they are prudently contenting themselves with what they can get. Their modus operandi is to give a flourish of honor to conceal disgrace.

But this piece-meal work is not conquering the mass of American Patriots. It is a discredit in the Obama regime to attempt it, and in WE the People to suffer it. It is now full time to put an end to Obama's domestic war of aggravations, which, on one side, has no possible object, and on the other has every inducement which honor, interest, safety, and happiness can inspire. If WE the People suffer the Obama regime much longer to remain among US, WE the People shall become as bad as they. An association of vice will reduce US more than the sword. A nation hardened in the practice of iniquity knows better how to profit by it than a young country newly corrupted. WE the People are not a match for them in the line of advantageous guilt, nor are they a match for US on the God-given inalienable rights and the constitutional principles and laws of freedom which we bravely set out with. Our first days were our days of honor. They have marked the character of America wherever the story of her historical development is told; and convinced of this, WE the People have nothing to do but wisely and unitedly to tread the well known track.

The progress of a confrontation with the Obama regime is as ruinous to the individuals as the issue of it is to the nation; and it is not only necessary that our patriotic forces be such that WE be conquerors in the end of this domestic war, but that by timely exertions WE Patriots be secure until the final day of the Barack Hussein Obama regime has transpired. The present patriotic campaign will afford an opportunity which has never presented itself before, and the preparations for it are equally necessary whether free America stands or falls. Suppose the first, it is in that case only a failure of the enemy, not a defeat. All the conquest that a besieged society can hope for is not to be conquered; and compelling the enemy Obama regime to raise the siege, is to the besieged a victory. But there must be a probability amounting almost to a certainty that would justify an Obama retreat. Therefore should America not be taken into socialism-communism and should the enemy abandon the undertaking, every part of the American society should prepare to meet the results. Preparations are necessary to balance any losses. American Patriots must put themselves in a position to cooperate with all of WE the People.

WE the People are fighting against the Obama regime alone, as WE the People were fighting against England in 1776. Obama will continue to distress US. Obama will suffer US to be overrun by dictatorial decrees. Obama will steal as much from WE

the People as he can, rather than quit the object that gratifies his revenge, truly a malicious disposition to America. This conduct on the part of Barack Hussein Obama has pointed out the propriety of subjected American society to socialism-communism on the spot. According to Barack Hussein Obama and his regime, the arrival of socialism-communism – what can only be called a curse! – cannot be very distant. Yet, WE the People know that the ravages of the pro-socialist-communist-enemy phase will not be long. The complete refusal to accept the Barack Hussein Obama socialist-communist society will restore to America internal peace and prosperity.

At a crisis as big as the present, with expectation and events, the whole country is called to unanimity and exertion. Not an ability ought now to sleep that can produce but a mite to the general good, nor even a whisper to pass that militates against it. The necessity of the case and the importance of the consequences admit no delay from a friend, no apology from a once-upon-a-time Obama supporter. To spare now would be the height of extravagance and to consult present ease would be to sacrifice it perhaps forever.

America is rich in patriotism and therefore neither persons nor supplies are wanting when a serious necessity calls them forth. The complete American Armed Services must begin a get-out-to-vote movement for the November 2014 elections to thwart the tyrant and rein in his tyranny. All active duty members, the National Guard units, the Military Reserve units, the retired servicemen and women are an interest group that can send the Obama regime into political oblivion. That is where this pseudo-commander-in-chief should be sent. In the present he only vacations, golfs, campaigns, ignores, and insults Americans who believe in the Republic that is the United States of America.

From this day until the tyrant head has expired, the following matters/questions must be raised and discussed every day and at every meeting of American Patriots regardless of how small or how large the group.

- Why does Barack Hussein Obama not prove that he is a natural born citizen according to Article II, Section 1, Paragraph 5 of the *Constitution* and therefore legitimize his being the occupant of the Oval Office?

- By what legal authorization did Barack Hussein Obama conduct war against Libya and its leader Muammar al-Gaddafi in 2011?
- What is the degree of involvement of Barack Hussein Obama in the coming to power of the evil Muslim Brotherhood government in Egypt in 2012?
- Why has the Egyptian government implicated Barack Hussein Obama as a foreign force that is attempting to restore the Muslim Brotherhood to power in Egypt?
- To what degree were Barack Hussein Obama and the former Egyptian President Mohammed Morsi involved in the attack on the United States compound in Benghazi, Libya on September 11, 2012? Why did Barack Hussein Obama not undertake any initiative to save four Americans, including the American Ambassador to Libya, from being killed?
- Why has Barack Hussein Obama allowed, indeed, actively placed Muslim Brotherhood operatives at high, sensitive levels of the American government?
- Why has Barack Hussein Obama not undertaken any action against jihad training camps that have been established by Muslim organizations throughout the United States of America?
- Why does Barack Hussein Obama support Muslim jihadists, the enemies of the United States of America, in Syria?
- With what logic and diplomatic *raison d'être* can Barack Hussein Obama admonish Russia for annexing the Crimea and threaten President Vladimir Putin and Russians with major sanctions to teach them a lesson? Yet, at the same time his regime continues to provide Russia with the Multiple Integrated Laser Engagement System (MILES) that is used in training to simulate ground force-on-force combat. This is part of military grade technology that is used by the United States Marine Corps, the United States Army, and United States Special Forces Operations. The policy is schizophrenic! ... Or is it because regimes of a feather flock together?
- Why does the Obama regime support forces of an ultra-nationalist opposition government in Ukraine? These forces propagandize many aspects of Nazi philosophy.
- Why does Barack Hussein Obama want to sign on as a member to the United Nations International Criminal Court (ICC)? Becoming a member would mean

that American troops could be arrested and tried for war crimes without redress to United States law and sovereignty. There would be no appeal process.

- What role did Barack Hussein Obama play in the Internal Revenue Service targeting of conservative groups to deny them tax exempt status?

The above aspects constitute acts of treason against the government and WE the People of the United States of America. Barack Hussein Obama is a hypocrite and tyrant!

The demand to tax the rich more and the extensiveness of the national deficit throw a double burden on Americans which has artfully been interpreted by foreign countries such as Russia and international organizations such as the United Nations as a general decline of America's economic power and military might. Yet this, inconvenient as it may at first appear, is not only remediable, but may be turned to an immediate advantage, particularly when the Obama regime and its call for the establishment of socialism-communism are defeated and at the direction of laws are executed or sent into political and physical banishment at their own expense. This is the cheapest and the best solution to Barack Hussein Obama's tyranny because it saves the expense which would be attended for by WE the People and brings the tyrants sooner to justice. Treason is the crime applied to traitors according to the *Constitution for the United States of America*. The law must be upheld and when executed, will add upwards respect to the force of the country.

The flame of anti-Obama patriotism which has broken forth not only does honor to America, but, like the blaze of 1776, will kindle into action the scattered sparks throughout America. The valor of a country may be learned by the bravery of its soldiery and the general cast of its inhabitants, but confidence of success is best discovered by the active measures pursued by its patriotic men and women. When the spirit of enterprise becomes so universal as to act at once on all ranks of men and women who are in action against the Obama regime, it will be styled truly popular.

In 1776, the ardor of the enterprising part was considerably checked by the real revolt of some, and the coolness of others. But in the present case, in the fight

against Barack Hussein Obama and his regime there is a firmness in the substance and beliefs of the country to the public cause. There are American Patriots at all levels of society. They receive and support the undertaking and the active protest movement against the Obama regime, a measure which, while it does them honor, likewise contributes to their interest, by rendering the operations of the American Patriots' campaign against the Obama regime convenient and effectual.

The spirit of exertion has not stopped here. It has been the remark of the enemy Obama regime that everything in America has been done by the force of the regime government; but when the Obama regime sees individuals throwing in their voluntary aid, and facilitating the public measures in concert with the established WE-the People-powers of the country, it will convince them that the cause of America stands not on the will of a few but on the broad foundation of patriotism and massive desire to be governed responsibly in a democratic republic. Traitors must be accused, tried, found guilty, and executed!

Thus aided and thus supported, disaffection will decline, and the withered head of tyranny will expire in America. The ravages of the enemy Obama regime will be short and limited, and like all former regimes, will produce a victory over themselves.

The American man and woman who does not now feel for the honor of the best and noblest cause that ever a country engaged in – the implementation of the principles of the *Declaration of Independence* and the rule of law established and guaranteed by the *Constitution for the United States of America* – and exert their personal strength accordingly, is no longer worthy of a peaceable residence among a people determined to be free.
