# The American Crisis

To All Patriotic Americans

A Call To Take Action

Number Nineteen

The American Crisis with Barack Hussein Obama as the cause is a subject that demands the attention of every patriotic United States citizen. Those who are not patriotic think Obama is god-like, although satan-like is a better description. Therefore, these kinds of citizens could care less about patriotism and what happens to the existence of this free republic, the United States of America under Barack Hussein Obama.

The patriotic American public will remember that an illegal election of Barack Hussein Obama took place in November 2008 and again in November 2012. These elections were illegal because Barack Hussein Obama was an illegal candidate according to Article 2, Paragraph 1, Section 5 of the *Constitution for the United States of America*. Until this said illegality of Barack Hussein Obama can be properly and legally prosecuted, it is necessary for American patriotic Republicans to gain political control of the United States Senate and keep control of the United States House of Representatives in the congressional election in November 2014. Furthermore, the enemedia must undergo a return to the responsibilities of a constitutionally guaranteed free press.

The Founding Fathers instituted and guaranteed a free press in the First Amendment to the *Constitution*. The press is the only profession stated in the *Bill of Rights*. The responsibility of the news media at the time of the Founding Fathers and now is to be

a watchdog on government. The news media then and now has the responsibility of finding facts and reporting them with a perspective and sometimes contrarian views so that the informed citizen can better view the course of government. The enemedia has not done this since 2008 and in many cases since before that year. The facts concerning the vetting of Barack Hussein Obama and his regime have neither been found, because the enemedia refused to find them, nor has the American citizenry ever been truthfully informed, because the enemedia has refused to inform them. Thus, the enemedia has broken itself off from its constitutional responsibility, in essence throwing aside the *Constitution for the United States of America*. In lieu thereof, the enemedia has established a selfish system of reporting Obama politics that can best be called going gaw-gaw over Obama, although there are other slang and vulgar expressions that can be used and which perhaps are better descriptions. The calculation of the enemedia is none other than to subtly fetter American opinion to Obama and his regime. In reality this fettering by the enemedia has two objectives: the one is to allure the American citizen to believe everything Obama says; and the other is to spirit up the Obama regime in placing the citizens of the United States under the total control of government for the eventual implementation of socialism-communism and sharia law. Viewed in this correct light, the Obama regime-enemedia interaction is an absurdity. It offends in the very act of endeavoring to ingratiate. The modus operandi and the goals of both the Obama regime and the enemedia are immoral.

Evidently, the enemedia thinks that America and its media have a right to be as foolish as they please, which has been proven by the practice of the majority of the American public and the enemedia for the almost seven years past. They forget that American Patriots are not sequestered from the happenings and revelations of the truth concerning Barack Hussein Obama. They forget that the truthful whispers are heard by other nations; that America's patriotic plans of politics and truth, which the Obama regime seems not to know, are necessary to return America to the right path of providence. America would be equally as foolish as any former tyranny were she to suffer a great degradation on her symbols the American flag and the founding documents, and a destructive stroke against the freedoms guaranteed by the *Bill of Rights*. Never forget that there is always a way to bring avarice and insolence to reason!

The ground of illegalities upon which the Obama regime has chosen to erect their policies is of a nature which ought, and I think must, awaken in every American a just and strong sense of national indignity. On the surface the policies appear to be sensible, but because they are based on totalitarianism and rule of a mob, the Obama thugs are attempting measures which cannot succeed.

There is little time left for the politics of the United States to be properly directed to counteract the Obama regime's and enemedia's goals. The Obama thug regime exists for the sole purpose of wrecking havoc on the United States of America so that it will be ultimately destroyed. American society has been infiltrated and is being undermined by Progressives, Obots, Leftists, Dumbed-downers, Socialists-Communists (POLDS) who are a cancer that needs to be politically exterminated.

We are experiencing the day-to-day politics of political correctness. It is a behavior that is evil because it never tells the truth. We the People have elected representatives in Washington who are not answering to WE the People. They are only intent at being asked to appear on political talk shows and interviews and to be o-so-politically correct. November, 2014 is the time and the opportunity to get rid of them so that America can return to act as a nation that is respected by its citizens and acclaimed by the world. The present situation of American politics discloses a truth too serious to be overlooked, and too mischievous not to be remedied.

The American citizen supporters of Barack Hussein Obama and the DemocRAT Party have committed treason against the United States of America, its traditions, and its patriotic Judeo-Christian values. The DemocRATS must be engaged head-on because they operate effectually as an injudicious, uncandid, and indecent mob made by sundry persons in a certain political nirvana who claim that only their recommendations to Congress are the answers to America's problems. It is because of the DemocRATS and the Obama regime that there is weakness in the national power of America. They are slowly but surely taking away a well-centered power in the United States with the goal of placing it under the auspices of the United Nations. There cannot be a doubt that if the idea of the diminished authority of America had occurred to them 100 years ago, they would have made the same grasp at socialism-communism as they are now making.

It is surprising that the process of honestly elected authority in the federal system, which can be supported with so much ease, and so little expense, and capable of such extensive advantages to the United States of America, should be cavilled at by those DemocRATS and RINOs whose true duty – if they were ever responsible politicians with an ethical core to their spines – it is to watch over a freely elected authority, and whose existence as a free people depends upon it. But this illegal usurpation of government offices led by a charlatan in chief, perhaps, will ever be the case till some misfortune awakens us into reason. The instance now before America is but a gentle beginning of what America must expect, unless she guards her union with better care and stricter honor. United against Barack Hussein Obama and the DemocRATS the country is formidable, and that with the least possible charge a nation can be so. Separated in the fight against Barack Hussein Obama and the mob DemocRATS, America is a medley of individual nothings, subject to the whims of a usurper, and a DemocRAT Party fickle with itself, who have made America the sport of foreign nations.

The ingenuity of American Patriots has found out a simple method to counter and supersede the intentions of the Obama regime. That method is TRUTH! The Obama regime and the DemocRATS cannot carry on their policies without violating the truth. The most formidable truth is that America is sovereign and independent and ought to conduct her affairs in a regular style of character.

But it is only by the states acting in union against Barack Hussein Obama that the usurpations of his regime can be counteracted. Much is said about the implementation of the Obama regime's rules and regulations, and the chief thug's executive orders. There is no law in the United States of America that says a state or government body, whether it be local, regional, state, or nation-wide must implement illegal rules, regulations, and executive orders. The signature on such is based on the supposed fact that Obama occupies a legal position. But Obama is not occupying a legal position because he does not meet the legal qualifications of the presidential office as outlined and guaranteed by the *Constitution for the United States of America*. Therefore, there is no legal reason to enforce what the Obama regime passes as rules and regulations and what Obama signs off on as executive orders.

When WE the People view OUR flag, which to the eye is beautiful, and when WE the People contemplate its rise and origin, WE are inspired with a sensation of sublime delight. OUR national honor must unite with OUR interest to prevent injury to the one, or insult to the other. WE the People must become ever more active in the political process. WE must communicate OUR thoughts to the enemedia and OUR elected representatives and senators in Congress, regardless of their wishy-washy political correctness. Bombard them with all kinds of mail. Perhaps the suggested formulation below will assist you.

Sources of form letters and petitions like the one below are to be found at

You can modify, print, sign, and mail, e-mail, or fax the letter to your representative and two senators. You may edit the letter and personalize it and make it yours or send it as is. Do not forget to put the politician's name at the top and sign your name at the bottom. You can contact your representatives and senators via the information contained at <http://www.contactingthecongress.org/> Send a copy of the letter to the enemedia of your choice or to all of them, as well.

Dear Congressman (So and So)

It is the duty of the Congress to impeach renegade Presidents and we certainly have one today. These past years, Obama has trampled on the *Constitution* and carried out multiple impeachable offenses against the citizens of this nation.

- He wages illegal wars, as in Libya, without the approval of Congress, as the *Constitution* requires.
- Four Americans died, because he did not adequately protect our ambassador in Libya due to his self-delusion about the war on terror being over and refusal to respond to the attack on our embassy there.
- Obama blatantly lied to the American public for weeks after the Benghazi attack as part of a political cover-up.

- He has intentionally assassinated American citizens abroad without due process in his illegal drone war.
- He has assassinated 5,000 other persons in illegal terroristic drone attacks in civilian areas of allied countries, such as Pakistan and Yemen, including hundreds of children and innocent bystanders.
- • He has willingly sent thousands of military arms to the drug warlords, which will contribute to the death of hundreds of innocent Mexicans and Americans.
- He has performed unprecedented, massive surveillance on American citizens and used the Internal Revenue Service as a tool of revenge against his political enemies.
- He makes law by executive order, as with his self imposed Amnesty, rather than executing the laws as written. This is an obvious dictatorial violation of the *Constitution*.
- His fiscal policy is catastrophic, is bankrupting America and will make debt slaves out of all of us.
- His energy policies are a prescription to enslave us to foreign oil producers.
- He interferes in the internal affairs of the states, such as in Arizona and Texas.
- President Obama betrays some of our oldest and best allies and, while apologizing for and befriending some of our worst enemies. He even has the gall to shamefully bow to foreign dictators, such as the King of Saudi Arabia.
- Obama is not constitutionally eligible for the presidency in the first place as a non-natural born citizen, according to the Framers original intent.
- He has defrauded the American public with an obviously computer-fabricated image of his birth certificate posted on the White House website.

Barack Obama is the worst president the United States has ever had! He has some perverse, seditious personal agenda against the basic interests of the United States of America, whether it is an ethnic loyalty to radical Islam, due to his family origins, and/or the well-documented hateful religious mandate to destroy America and white society of Black Liberation Theology, the cult doctrine of his militant, pseudo-Christian “church” in Chicago.

I demand that you and the Congress impeach and remove him from office. If you do not, the continuing harm he does to this country will certainly impact your future as well as ours.

Sincerely,  
(Your Name Here)

\*\*\*

As the scenes of Obama's domestic war on America are very slowly drawing to a close and every man and woman is hopefully preparing for happier times with the November 2014 election, I suggest that every American Patriot fly the American flag upside down. This is not a sign of disrespect. It is the official, federal recognition that the United States of America is in distress, a condition that will remain with US as long as Barack Hussein Obama and his thugs are still in office and have control of the United States Senate.

With this nineteenth *Call To Take Action* I take my leave of this present patriotic act against the tyrant Barack Hussein Obama. This does not mean that I will cease criticism of Barack Hussein Obama and refrain from placing him and the DemocRATS on the scaffold to be executed by truth. I will continue my patriotism with other subject matter at other times and at other places. I have most sincerely followed my course from beginning to end and through all its turns and windings. Wherever I may be in the future, I shall always feel an honest pride at the part I have taken and a sincere gratitude to my supporters, to Nature, and to providence for putting it in my power to be of some use to the present-day and the future United States of America.
